Positivity Project

This week in Positivity Project we will begin learning about **Appreciation of Beauty and Excellence.**

Appreciating excellence and beauty helps an individual experience positive emotions and connect with the world around them. It's an outward facing strength, meaning the individual is focused on the world outside their head. Not only is the individual outwardly focused, but often deeply absorbed in a sense of awe or admiration, freeing them to forget anxieties and troubles. It is associated with other strengths, such as gratitude, curiosity, love of learning, and connection/purpose. Those who appreciate excellence and beauty make our lives more enjoyable. They are not looking to criticize the world or it's people, but instead take pleasure from their excellence.

Principal's Corner

Dear Parents,

As we approach the state testing period, I wanted to remind you of the importance of your support in ensuring our students can excel. This is their time to shine!

Here are a few things you can do to help your child succeed:

1. Encourage regular attendance: Being present every day is crucial for their preparation.
2. Prioritize rest: Getting good rest can significantly impact their performance during the tests.

Your involvement and encouragement make a significant difference in our students' success. Thank you for your ongoing support.

Mr. Bolls
